GerdaU is the fourth largest overall steel company and the second largest minimill steel producer in North America. The company has the capacity to manufacture over 12 million tons of mill finished steel products annually. Through an integrated network of minimills, steel scrap recycling facilities, and downstream operations, the company serves customers throughout North America.

We believe our employees are the best in the business. We have high standards and our employees constantly strive to reach even higher levels of success. GerdaU growth is based on our values and on a vision focused on excellence. We see customer satisfaction, the personal and professional growth of each employee, total safety in the workplace, a commitment to our stakeholders, employees, and communities, and profit as a measure of performance.
