

### **Industrial Mechanic Millwright**

GerdaU is the fourth largest overall steel company and the second largest minimill steel producer in North America. The company has the capacity to manufacture over 12 million tons of mill finished steel products annually. Through an integrated network of minimills, steel scrap recycling facilities, and downstream operations, the company serves customers throughout North America.

We believe our employees are the best in the business. We have high standards and our employees constantly strive to reach even higher levels of success. GerdaU growth is based on our values and on a vision focused on excellence. We see customer satisfaction, the personal and professional growth of each employee, total safety in the workplace, a commitment to our stakeholders, employees, and communities, and profit as a measure of performance.

GerdaU is currently seeking an Industrial Mechanic Millwright in Selkirk, MB

To inspect, repair, replace, install, adjust and maintain mechanical hydraulic and pneumatic equipment and to layout and fabricate steel structures.

Drill press, power saw, chain falls, burning and welding equipment, threading machine, miscellaneous hand and power tools, measuring devices.

Plant mechanical hydraulic and pneumatic equipment, repair parts, lubricants, hardware, packing, pipes and fittings, miscellaneous materials, welding and brazing supplies.

Mechanical Maintenance Supervisor. Performs work with a minimum of direction.

Works alone or directs other workmen as required.

Receives instructions covering the scheduled and emergency repairs, installation and inspection work to be done.

Inspects equipment for defects such as misalignment, wear, insufficient lubrication.

Determines the best way of making repairs to minimize interruption of production.

Advises when immediate shut down of equipment is necessary to minimize damage or when temporary continued operation would have no harmful effect.

Trouble shoots and repairs hydraulic and pneumatic systems and equipment.

Assembles or aligns gears, bearings and shafts involving the application of press, sliding and running fits.

Changes, sets up and adjusts equipment as required by current operating conditions.

Interprets drawings and sketches.

Dismantles, cleans, repairs, replaces, installs, maintains, assembles, and lubricates mechanical equipment.

Performs routine layout work, fabrication or repair of steel structures and components.

Selects material in accordance with suitability for job and performs burning and mild steel welding.

Operates simple machine tools such as drill press, pipe threading machine and power saw.

Erects scaffolds and performs rigging as necessary.

Notes and reports defects in tools and equipment.

Keeps immediate working area clean. Observes all safety rules.

Required:

- Millwright Journeyman Certificate for Manitoba
- Previous experience in a manufacturing environment
- Ability to work 12 hour rotating shifts.
- Follow all safety guidelines and wear appropriate safety equipment at all times.
- Have excellent attendance records, verifiable work history and references.
- 3rd year apprenticeship or higher
