

# Native Plant Solutions Conservation Technicians

## Ducks Unlimited Canada's Native Plant Solutions is seeking Conservation Technicians to work out of our Winnipeg office from May-August 2012.

Responsibilities include, but are not limited to: weed control, herbicide handling and application, soil management practices to reduce soil erosion, and establishment of annual and perennial crops. Candidates must be able to perform rigorous fieldwork and cope with a variety of weather conditions. The ability to operate a variety of farm equipment would be an asset. A valid driver's license is essential. Some travel may be required.

A degree, diploma, completed course work, and/or relevant work experience in agronomy, environmental science, or a related field is required. A good understanding of the basics of forage/grassland establishment, soil science, and/or wetland ecology would be helpful. Knowledge of geographic information systems is also an asset.

Conservation Technicians with a combination of agronomy, farm management, landscaping, or wetland experience will be given preference. The gross salary for these summer positions is \$2,200 CDN/month. Deadline for applications is February 29, 2012.

If you are qualified and interested in this opportunity, please forward (email preferred) your cover letter (including date of availability for work), resumé, names of three references, and a copy of your academic transcripts for confidential consideration to the attention of:
