

GIS Technician

By joining Tone Ag Consulting Ltd., you will have the opportunity to develop your skills across a variety of tasks by assisting our agronomist in his day-to-day work. As your skills and familiarity with our methods develop, you will undertake more independent work.

Qualifications

- Basic GIS skills
- Solid report-writing skills
- Entry-level, will train
- Ability to work alone
- Versatility
- Certified Crop Advisor or agricultural experience an asset
- Excellent English communication skills

Work consists of:

- Making maps of clients' fields
- Assisting with manure management plans
- Report writing
- Data analysis
- Other tasks as assigned

We offer a competitive salary based on qualifications.

Tone Ag Consulting Ltd. provides manure management plans, crop damage claims, crop scouting, soil sampling, and soil surveys to farmers and livestock operators. We are based just outside of St. Pierre, MB roughly 40 minutes south of Winnipeg.
