

Job ID:	4011	Post Date:	12/01/11
Category:	Geomatics	Type:	Full Time
Start Date:	Immediately	Salary:	Negotiable
Location:	Estevan, Saskatchewan	Job Reference:	2132

Description

Our **Estevan** location currently has an opportunity for a **Geomatics Technician**.

Located South East of Regina and 10 minutes north of the American border, Estevan, the 'Energy City', is a place you can call home. With a population of approximately 11,000, Estevan offers many amenities including hospitals, museums, cultural centers, recreational facilities, golf greens, a 24-hour border crossing to the US, and much more. Estevan is consistently busy, providing an excellent opportunity to work in a bustling environment. Saskatchewan is growing and leading the country in many economic areas and Estevan is booming with this trend.

Why Choose Midwest Surveys?

Midwest Surveys is a 100% employee owned company that values its people! Celebrating 60 years in the industry, we have been ranked as one of the 50 Best Employers in Canada, a Top Employer in Alberta, and ranked as a company with one of Canada's 30 Best Pensions and Benefits Plans. We were also selected as Alberta's Best Workplace for Health and Safety in 2008 by Venture Magazine.

Midwest Surveys actively supports local communities and charities. We pride ourselves on operating with a high level of ethics and are committed to providing an outstanding work environment. We offer a competitive compensation and benefits package and value our ability to retain top talent.

Midwest Surveys is a professional land surveying firm providing geomatics services to the oil and gas industry and municipalities through our ten offices in Alberta, British Columbia, and Saskatchewan.

Position Details:

In this role, you will be asked to work closely with our team to process field data, track job progress and check survey plans. You will have a working knowledge of how GPS and total stations are used in the collection of survey data, and liaise closely with project management to effectively provide clients with excellent service.

Skills

Qualifications:

A Degree or Diploma in Geomatics and/or Survey Technology from a recognized technical school or equivalent experience.

Experience:

- General survey experience is an asset;
- Proficiency in AutoCAD is an asset;
- An understanding of numerous computer programs; and
- Experience in a similar role is a definite asset.

Key Competencies and Behavioural Attributes:

- Keenness to work in a team environment;
- Good communication skills and a strong sense of professionalism;
- Strong mathematical and computer operating skills; and
- Demonstrated organizational skills and attention to detail.
